

Plückhahn Census Records

Census for the State of Mecklenburg

We are investigating a few different German census records for our Plückhahn ancestors. These census records will tell us towns and parishes where we can narrow the focus of our research. Since we originated from Mecklenburg, our focus has been here.

Census for Mecklenburg-Schwerin is available at the Family History Centers for 1704, 1751, 1819, 1867, 1890 and 1900. There are also a few early census records for the Duchy of Mecklenburg for 1633-1634, 1677, and 1689 (microfilm #068,934).

The 1867 census is on 357 microfilms. The 1890 census is on 92 microfilms, and the 1900 census is on 755 microfilms. In order to use these films, you will need to know the town your family was from.
